

Introducing the SwabBot™ Benchtop Device (S1B1): Elevate Your Quality Control Laboratory Swabbing Process!

Experience a new era of precision and consistency in your Quality Control Laboratory by automating your coupon studies with the SwabBot Benchtop Device (S1B1). This revolutionary device seamlessly complements the SwabBot (S1R1), better known as SWAB-E™ ensures that the unparalleled swabbing excellence achieved in the field is replicated within your laboratory. Harness the power of automation to amplify productivity and drive exceptional performance while maintaining the highest standard.

Unrivaled Accuracy, Repeatability, and Efficiency:

The S1B1 redefines swabbing in your Quality Control Laboratory, delivering unmatched accuracy and repeatability to your coupon studies. Eliminate the variability associated with manual swabbing and empower your laboratory with results that mirror those achieved in real-world applications.

Seamless Integration, Consistent Excellence:

By harnessing the capabilities of SwabBot, the S1B1 ensures that the exceptional swabbing standards you achieve in the field are seamlessly mirrored within your laboratory environment. Maintain consistency across your processes and drive confidence in your testing outcomes.

Customized to Your Needs:

The S1B1 is designed with adaptability in mind, offering a tailored solution that aligns precisely with your laboratory's requirements. Whether you need a single swabbing unit or seek to enhance throughput with multiple swabbing units, the S1B1 can be configured to meet your specific needs.

The Power of SwabBot™ in the Laboratory: Taking Swabbing to New Levels

Key Features:

- ✓ **Laboratory Efficiency:** The S1B1 allows you to prep for the next sample while it performs the swabbing. If you have multiple units, you can complete multiple samples without needing a certified swabbing professional. Optimize your throughput and expedite your testing timeline.
- ✓ **Sample Pre-Load Efficiency:** The sample pre-load feature speeds up testing, streamlining your swabbing process for increased efficiency.
- ✓ **Swabbing Success Indicator:** The S1B1 clearly indicates when swabbing has been successfully completed, minimizing the need for manual oversight, and promoting streamlined operations.

Elevate Laboratory Productivity:

Step into a new realm of laboratory efficiency with our SwabBot Benchtop Device (S1B1). Elevate your swabbing processes to a level of accuracy and reliability that sets new industry benchmarks. Experience the future of laboratory swabbing – acquire your S1B1 today and redefine your Quality Control standards.

Pre-Order your Laboratory SwabBot Today:

We are taking pre-orders for the SwabBot Laboratory Benchtop System (S1B1) for delivery. For more information or to place an order, please contact Rick Mineo at Rick.Mineo@Swabbot.com.
