

Introducing the SwabBot™ Equipment Access System (SEAS): Unleash the Full Potential of Your SwabBot!

Elevate your swabbing capabilities with the SwabBot Equipment Access System (SEAS), an innovative accessory meticulously crafted to complement your SwabBot and extend its reach to the most challenging swabbing locations. Designed specifically for large tanks, vessels, and other distant and hard-to-reach spots, the SEAS is your ultimate solution for achieving comprehensive cleanliness with utmost ease.

Enhance Efficiency, Minimize Effort:

The SEAS transforms your swabbing endeavors by enabling access to distant swabbing points that are beyond the operator's reach. Say goodbye to the limitations of traditional swabbing methods and embark on a new level of efficiency and accuracy.

Safety-First Design:

The SEAS is equipped with built-in safety features to safeguard your tanks and vessels during the positioning of the SwabBot. This ensures that accidental damage is prevented, preserving the integrity of your equipment and production environment.

Tailored to Your Needs:

The SEAS is designed with flexibility in mind. It can be customized to perfectly align with your specific requirements, ensuring that you invest only in the components that are essential for your swabbing tasks. This customization option optimizes your investment and streamlines your swabbing process for ultimate efficiency.

SwabBot™ Accessories: Taking Swabbing to New Levels

Key Features:

- ✓ **Broad Compatibility:** The SEAS seamlessly fits manway openings from 18 to 34 inches, ensuring adaptability to a wide range of tank and vessel sizes.
- ✓ **Precision Alignment:** Utilize the SwabBot camera for effortless and precise alignment, guaranteeing that the SwabBot is accurately positioned for optimal swabbing performance.
- ✓ **Secure Motion Locks:** The SEAS features motion locks that effectively prevent any inadvertent falling of the SwabBot into the tank or vessel, ensuring operational safety and peace of mind.
- ✓ **Versatile Maneuverability:** With 6 degrees of freedom, the SEAS empowers you to target every nook and cranny within the tank or vessel, maximizing the coverage area for thorough swabbing.

Elevate Your Swabbing Game:

Experience a new era of swabbing excellence with the SwabBot Equipment Access System (SEAS). Maximize the value of your SwabBot and conquer the most challenging swabbing locations with confidence and precision. Elevate your standards of cleanliness – get your SEAS today and redefine your cleaning validation approach.
